PROFESSIONAL SUMMARY

Educational psychologist and emerging Human-Computer Interaction (HCI) researcher specialising in UX research, accessibility, and human-centred AI in education. My research focuses on designing and evaluating inclusive digital learning systems that integrate AI to enhance learner engagement, accessibility, and decision-making. I apply behavioural science and cognitive psychology to understand user experience in interactive systems, with emphasis on AI-supported learning, accessibility, and educational technology design.

EDUCATION

University of Abuja, Nigeria **2018-2023**

M.Ed. (Master of Education) *Educational Psychology* | CGPA: 4.35/5.00 (Merit)

Dissertation: “The Relationship Between Personality Traits and Academic Performance of Junior Secondary School Students” (*Published Work*)

Advisor: Prof. J.B. Badu, Prof. Appeh A. Hosea

University of Port Harcourt, Rivers State, Nigeria **2006-2010**

BSc (Ed), Double Honours Counseling Psychology | *Second Class Hons, Upper Division* | CGPA: 4.32/5.00

Project: “The Influence of Socio-economic Status of Parents on Students' Academic Performance”

Advisor: Dr Nwachukwu E.

ACADEMIC & RESEARCH ACTIVITIES

- Conducted postgraduate research on psychological and behavioural factors influencing academic performance in secondary education.
- Published Master’s dissertation on personality traits and academic achievement.
- Developed an accessibility-first UX research project focused on inclusive digital learning systems. Participated in interdisciplinary hackathons focused on human-centred design and AI-assisted digital systems.
- Conducted independent research in HCI, UX design, accessibility, and educational technology.
- Applied user-centred design approaches to evaluate inclusive learning experiences and digital accessibility barriers.

RESEARCH PROJECTS

Accessibility-First Learning System (UX Research Project)

Designed an accessibility-focused digital learning system to improve usability and inclusion for diverse learners, including users with cognitive and accessibility needs. Applied HCI and educational psychology principles to guide design decisions. Conducted usability testing and qualitative evaluation to identify barriers and refine the system. Currently exploring integration of AI-driven personalisation for adaptive and inclusive learning experiences.

RESEARCH INTERESTS

Human-Computer Interaction (HCI), Human-Centred Artificial Intelligence in Education, Learning Analytics, Educational Technology, UX and Usability Evaluation, Accessibility and Inclusive Design, Cognitive Psychology in Interactive Systems, and Co-design of AI-supported and immersive learning environments (e.g., VR/AR). Focus on understanding psychological and behavioural factors that influence student engagement and learning in digital environments.

RESEARCH SKILLS & METHODOLOGIES

- Qualitative research methods (interviews, thematic analysis)
- Survey design and behavioural data collection
- UX research (usability testing, user interviews, heuristic evaluation)
- Human-centred design and co-design methods
- Literature review and academic synthesis
- Basic quantitative analysis and interpretation of behavioural data

TECHNICAL SKILLS

- Front-end development: HTML, CSS, JavaScript, React, WordPress
- UX/UI design and prototyping tools
- Human-Computer Interaction design principles
- Applied AI tools for educational and UX experimentation
- Exploratory experience with AR/VR technologies
- Microsoft Office and Google Workspace

PROFESSIONAL QUALIFICATIONS

- Google — UX Design Professional Certificate (Coursera), 2022
- University of Michigan — Human-Computer Interaction, 2023
- IBM — Explore Emerging Technology, 2023
- IBM — Project Management, 2023
- Harvard University — Introduction to Computer Science (CS50), 2024
- ALX — Software Engineering, 2024
- Women Techsters Fellowship — 3D Modelling, 2024
- ALX — AI Starter Kit, 2025
- LinkedIn Learning — Generative AI, 2025
- University of California San Diego — Human-Computer Interaction (Coursera), In Progress (2026)

WORK EXPERIENCES

Frontend Engineer	August 2025 – November 2025
Codematic/Google Hackathon	
• Contributed to UX-focused design decisions and AI-assisted interface concepts in collaborative development environments. • Developed responsive web interfaces using HTML, CSS, JavaScript, and React • Participated in ideation of AI-assisted solutions for user-centered applications • Worked within Agile teams using Git/GitHub for collaborative software development	
Virtual Assistant	2022–2023
African Leadership Experience, Nigeria	
• Managed 40+ weekly client engagements with 95% on-time completion • Planned travel logistics, reducing costs by 20% through optimization • Created presentations, surveys, and itineraries; performed data entry and expense tracking	
Class Mistress/Secretary	2018-2021
Junior Secondary School, Gwagwalada, Abuja	
• Organized classroom supplies and created interactive lesson plans • Improved assessment scores by 25% over a 12-week period	

- Designed and implemented 13 comprehensive lesson plans aligned with educational objectives

Class Teacher/Sectional Head/Quality assurance

2014 - 2018

Kingdom Heritage Model School, Gwagwalada, Abuja

- Designed and implemented behavioural tracking and intervention systems informed by educational psychology principles, improving classroom engagement and discipline outcomes.
- Applied observational and behavioural data to inform classroom management and institutional policy compliance
- Evaluated behavioural intervention outcomes to adjust strategies based on observed patterns

Intern

2009

Abia State University Teaching Hospital, Aba

- Supported data analysis and interpretation of behavioural datasets for counselling and educational research purposes.
- Managed and cleaned datasets (200+ responses) to generate progress reports
- Enhanced project timelines by 15% through data-informed insights

AWARDS AND HONOURS

- | | |
|--|------|
| • Development Bank of Nigeria Grant Award Winner – sustainability award | 2022 |
| • Students Counseling Association of Nigeria Honors Award – Most Diligent Student | 2009 |
| • Students Counseling Association of Nigeria Honors Award – Most Intelligent Student | 2010 |

PROFESSIONAL MEMBERSHIP

- | | |
|--|------|
| • Teachers Registration Council of Nigeria (TRCN) – Member | 2016 |
| • Women Techmakers - Member | 2025 |
| • Google Developers – Member | 2025 |

TRAINING AND CONFERENCES

- Leadership and Nation Building – Catalyst Leadership Institute (NTA, Rivers State, 2010)
- Transforming Nigerian Youths Programme – Mastercard Foundation (Enterprise Development Centre, 2020)
- Entrepreneurship Training and Certification – Tony Elumelu Foundation (2022)
- Development Bank of Nigeria Entrepreneurship Training and Grant Award Winner (2023)
- Professional Foundation of African Leadership Experience (2025)
